

Impact Assessment of KJ Somaiya Hospital COVID-19 Relief Program supported by BNP Paribas

Executive Summary

BNP Paribas

February 2023

About the Project

Context

- ❖ With the increase in the number of positive coronavirus cases in Mumbai, the Government of Maharashtra had taken steps to involve private hospitals to help in severely affected situations apart from Government and municipal hospitals
- ❖ Management and Treatment of patients in the first and second wave of COVID-19

Location

Mumbai and Mumbai Suburban

₹3.57 Crores

Spent in the year FY 2020-21*

BNP Paribas' Support

- ❖ As a part of CSR initiative, BNP Paribas supported KJSMT in augmenting the capacity for treating COVID Patients. Consumables & Disposables
- ❖ Infrastructural and equipment support in the form of medical beds, Oxygen cylinders, crash carts, and syringe pumps etc. was provided

Policy Alignment

The relief support project is in line with CSR Policy of the Company and aligned to Schedule VII of section 135 of the Companies Act, 2013

Eradicating poverty, hunger and malnutrition, promoting health care which includes sanitation and preventive health care, contribution to the Swach Bharat Kosh set-up by the Central Government for the promotion of sanitation and making available safe drinking water

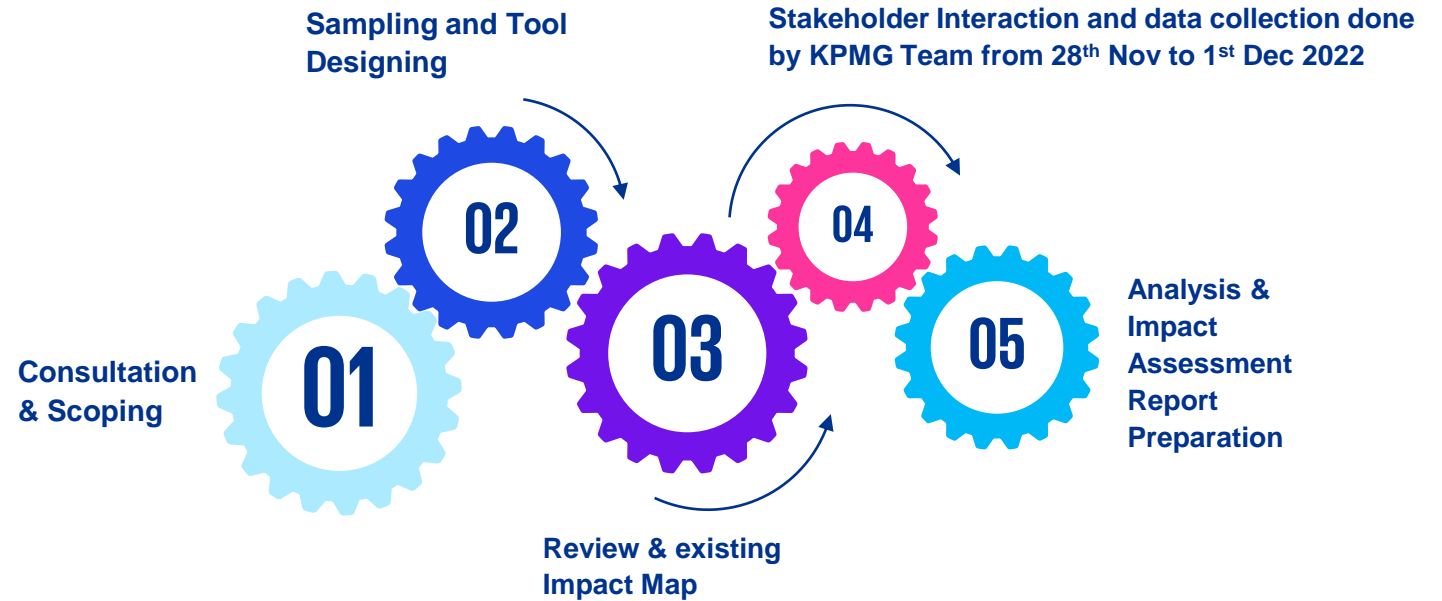

Assessment Framework

Objective

- ❖ To study the impact of support provided by KJSMT for providing relief to the affected persons from socially and economically weaker sections of the society
- ❖ To capture the perspective of beneficiaries with regards to the access of various COVID relief services provided by KJSMT

Methodology

- ❖ **Primary Research** – KPMG Team interacted with 5 members of implementation partner (COO, Medical Superintendent, HOD-General Surgery, Resident Doctor, EA to Chairman and MD) and 13 beneficiaries (who received support in FY 2020-21) from 28th November to 1st December 2022
- ❖ **Secondary Research** – Documents like Appeal letter and budget submitted to BNP Paribas

Gender		Age Group		Household Size

		50- 59 Yrs	6	5	6
		70- 79 Yrs	3	6+	2

Findings: Key outcomes and Way forward

Severity of Ailment

Respondents reported that to have availed healthcare specific to COVID-19 for a range of severity of ailment

Ease of Availing Services

Respondents reported that there was ease in availing the different medical tests and services like RTPCR/ RAT and ward facilities. Further, most of the respondents opined that hospital staff helped them in coping with stress.

Subsidized & Timely Treatment

Respondents reported that their treatments were subsidised and that they were provided with timely and quality medical treatment which was critical for the patient's speedy recovery and that this enabled them to employ their financial resources for other vital purposes

Way forward

- Disaster management plans may be bolstered and regular trainings be provided to the medical fraternity.
- Latest medical technology and processes should be adopted and staff trained on the same on regular basis

COVID was a difficult time, we are grateful for the financial and medical support provided to us.

Thank You
